STATE OF PLAY ON REASONED OPINIONS AND CONTRIBUTIONS SUBMITTED BY NATIONAL PARLIAMENTS UNDER PROTOCOL 2 OF THE LISBON TREATY

This note by the Directorate for Relations with National Parliaments provides an update of submissions received by the European Parliament in the context of Protocol 2 during the period 16 March 2019 - 05 April 2019.

Protocol 2 of the Lisbon Treaty sets out a review mechanism involving national Parliaments regarding proposed legislation which does not fall under the exclusive competence of the European Union. Thus, national Parliaments/Chambers may review within eight weeks of transmission such proposed legislation and issue a "reasoned opinion" if they consider that a draft EU legislative act does not comply with the principle of subsidiarity. Reasoned opinions are translated into all EU official languages (with the exception of Gaelic and Maltese). In the majority of cases, submissions from national Parliaments go beyond the issue of subsidiarity, discussing the substantive merits of proposals. These submissions are called "contributions". Contributions may be translated into one other language on special request by the Committee Chair or the Rapporteur¹.

Pursuant to Rule 42(4) of the Rules of Procedure, all reasoned opinions are referred to the Committee(s) responsible for the draft legislative act and forwarded for information to the Committee on Legal Affairs. Contributions are referred to the Committee(s) responsible for the draft legislative act (Rule 142(4) of the Rules of Procedure).

The Directorate for Relations with National Parliaments advises the political bodies, Members and the secretariat of the EP in their institutional cooperation and legislative dialogue with the national Parliaments. Within this Directorate, the Legislative Dialogue Unit provides Members of the European Parliament, in particular Rapporteurs, with specific expertise on national Parliaments submissions throughout the legislative cycle.

**All national Parliament documents officially received by the EP are
available in the "Connect" database on the EP internet:
