Dear EYE participants,

Welcome to the heart of European democracy! I am very happy that you want to be present to discuss and develop your ideas at the European Youth Event – EYE.

Today we are in urgent need of new ideas for Europe. The European Union faces bigger challenges than ever: the refugee crisis, increasing nationalism, the economic and monetary union that still needs to be finished, a possible exit of the UK from the EU and the danger from terrorism are only some of the most pressing problems.

It would be dangerous to think that there are no alternatives to the EU. There is one. It is a Europe of nationalisms, of borders and walls, a Europe of antagonism and egoism. A Europe of less prosperity, less security, less freedom and less cooperation. And now we have come dangerously close to this alternative, as for the first time in history the failure of this grand idea and incomparable success story is unfortunately a realistic scenario.

Everyone who puts our common project in jeopardy puts in jeopardy the future of coming generations. It is thanks especially to young, active people like you that I believe in the future of Europe. With your contribution to a vibrant European democracy, you will make the difference in the future. This leaves me optimistic regarding the huge tasks ahead of us.

So thank you very much for your interest in European politics and the European Parliament – an exciting, multilingual, unique political institution. And the European Youth Event will be equally international and multilingual. My wish for you all is to have fun, hold interesting discussions, come up with many good ideas and enjoy your experience here in Strasbourg.

**Mr Martin Schulz,**  
*President of the European Parliament*

Dear participants,

Thank you for accepting the European Parliament's invitation to participate in the second edition of the European Youth Event (EYE).

The EYE 2016 brings together young people from the 28 EU Member States and beyond in the European Parliament. It will be a unique opportunity for you to engage in workshops, debates and many other activities with your peers and with decision-makers. We want to listen to YOU! Your ideas will serve as a source of inspiration for Members of the European Parliament and will be discussed in several parliamentary committees in the autumn.

The EYE 2016 aims to:

- give you the opportunity to present and discuss ideas on how to make a change in Europe with fellow participants and with European decision-makers;
- encourage discussion and debate on hot topics and future European policies;
- give you an opportunity to stage cultural performances and showcase cultural diversity in Europe.

On behalf of the European Parliament, we would like to thank our EYE partners and all the youth groups contributing to the event.

You are all invited to get involved in the many indoor and outdoor activities on offer during the EYE 2016.

We are looking forward to meeting you in Strasbourg.

**Ms Mairead McGuinness and Ms Sylvie Guillaume,**  
*Vice-Presidents of the European Parliament*

Dear young Europeans,

I am very happy to welcome you to the seat of the European Parliament. Given the success of the first edition of the European Youth Event – EYE2014, the President and Vice-Presidents decided to invite all of you to a second edition on 20 to 21 May 2016, for an exciting weekend of ideas, debate and encounters.

The European Parliament has organised the event with the help of 11 partners, notably the European Youth Forum, to help ensure that the EYE is not only an event for young people, but is also organised with young people.

The EYE is a unique event. It brings together young people from all backgrounds and from all over the European Union. Politicians, scientists, artists, entrepreneurs, academics and other experts have come here to listen to your ideas and join in your discussions.

The EYE 2016 will include a wide variety of activities, focusing on five main themes:

- **War and Peace:** Perspectives for a Peaceful Planet
- **Apathy or Participation:** Agenda for a Vibrant Democracy
- **Exclusion or Access:** Crackdown on Youth Unemployment
- **Stagnation or Innovation:** Tomorrow's World of Work
- **Collapse or Success:** New Ways for a Sustainable Europe

The EYE motto is “Together we can make a change”: the future of the EU belongs to you, the younger generation. This weekend you have the opportunity to contribute to shaping it. I wish you all a successful and enjoyable weekend!

**Mr Klaus Welle,**  
*Secretary-General of the European Parliament*

### Tracking my Europe: A digital mapping project

Ahead of the opening of the House of European History - scheduled for November 2016 - the EYE participants will have the opportunity to test an interactive exhibit that will feature in the House's first temporary exhibition, and react on it. The exhibition, which explores encounters and exchange across borders throughout history, will start with a collaborative piece. The piece will rely on contributions from online and onsite visitors from everywhere to produce a unique map of people's experiences and preferences beyond borders. On this map that will keep developing as long as this exhibition is open, the lines will not be borders delimitating countries but instead links connecting people to places across Europe and beyond. You are invited to drop by the stand that will be up throughout the event. Take a few minutes to contribute to this collaborative experiment and have a chat with the team: your experience and ideas will help us make this work!

## The EYE Report

The European Youth Event – EYE2016 – is a chance for young people across Europe to make their voices heard on the issues that matter to them.

Following up to the event, the EYE2016 report will be conducted by a dozen specialists and editors from across Europe, using data gathered from discussions, interviews, ballots and social media. It will summarize the outcomes of the EYE2016, tell the stories of the young participants, and present the ideas for a better Europe they have come up with during the event.

In September the report will be handed over to all the Members of the European Parliament; in autumn, the most interesting ideas of the EYE2016 will be discussed in the relevant Parliamentary committees. This will ensure that the leaders of Europe hear the voice of young people.

# Bookable activities

## Key activity formats

The EYE will offer a wide variety of activities that need to be booked in advance. These will be carried out in the following formats:

- Debate:* Address an issue in a polarised way and challenge participants with clear pros and cons.
- Digital Games:* Participants will play digital games related to the EYE themes. Gaming will be followed by a discussion on the specific topic.
- Discussion:* Deal with complex subjects and shed light on many viewpoints and angles rather than just two opposing positions regarding a topic.
- Hearing:* Experts or young stakeholders affected by the subject of the activity present their cases or arguments from different angles (3-5 min), and then have a discussion with participants.
- Ideas check:* In this quick-fire format, devised especially for the EYE event, young people will bounce their ideas and proposals off political leaders, who will have two minutes to respond.
- Ideas Lab:* What could or should be changed in today's world? Participants take the role of young advisors to Members of the European Parliament responsible for a new legislation. Young Europeans decide both on the agenda for discussion and their concrete proposals for change, before (online) and during the EYE.
- Question time:* Top-level speakers take and answer participants' questions on their positions, actions and ideas.
- Talk:* In a more informal ambience, the focus here lies more on personal stories, views, experiences and ideas than on official policies and statements.
- Workshops:* Interactive, more hands-on or specialised activities in smaller groups.

Discover "Youth as agents of behavioural change", the Red Cross and Red Crescent's flagship initiative for promoting a culture of non-violence and peace. Empathy, active listening, critical thinking, non-judgement and non-violent communication are some of the main skills that the workshop will teach you!

### Documentary: Send in the clowns

Ciné ONU: How successful and effective are aid organisations in delivering lasting solutions and empowering victims of conflicts or natural disasters? What about the power of laughter to relieve stress and suffering in areas of crisis? The touching and humorous documentary tells the story of idealistic volunteer performers from the organisation “Clowns without Borders”. It captures their work in Haiti, both before and after the 2010 earthquake, and questions whether Haiti’s crippling and conflicted relationship with aid organisations is actually more absurd than sending in the clowns.

### RealTime World War One: An online time travel experience

Peace is the greatest achievement of European integration. The European Union was built on the ruins of two world wars – wars of which our generation (luckily!) hardly understands the impact. With our Twitter project @RealTimeWW1, we want to use social media to convey a sense of omnipresent misery in wartime, and at the same time the value of peace.

### Peace in Europe – an unstable balance?

Can European mobility programmes help in the prevention of radicalisation of young people? Can they foster the development of a critical debate within society? Which lessons are to be learned from previous wars? How can peace education and active remembrance work be used in youth encounters?

In this workshop we will assess the peace prospects of the EU rather than taking peace for granted. We want to discuss how European mobility programmes can be used to spread peace values and thus foster equality, solidarity and constructive dialogue between different groups in society. Intercultural learning, the deconstruction of prejudices and the prevention of radicalisation tendencies can help fight against discrimination and exclusion – and thus for peace in Europe.

## Europe 2030: Megatrends shaping our future

No one knows what the future holds, but we can at least try to predict it. Whether Europe will turn into a land of our dreams or the scene of a nightmare depends on many factors. Using driving forces in society, four potential scenarios will be developed that show how Europe may look in 2030. We will analyse past, present and future trends and try to determine how they might shape our societies, policies and borders. How can we stimulate positive developments and how can we correct negative trends?

### Life is a stage...

*Two theatre plays*

### War, what if it were here?

Based on the novel "War, what if it were here?" by Janne Teller, this play is fiction twisting reality: imagine a world in which the European states are at war, while there is peace in the Arab world. Everyday life in Europe is dominated by hunger, coldness, a serious housing shortage and the fear of bomb strikes. The democratic system has failed and fascist dictators have seized control of the government. This crisis situation is carefully examined from the point of view of different protagonists.

Performed by Kreisgymnasium St. Ursula (Gruppe: "Ausdruck macht Eindruck") (Germany)

### Hello, it's me

This play raises questions on how young people can define their role in today's ever-changing masses. Where do you stand in the world? How can you meet others, not to be left alone? Can you – and do you want to – actively respond to societal challenges, or should you turn a blind eye to them? How can you remove the labels that society has assigned to you?

Performed by Les Théatreux de Pécs (Hungary)

### "European Wonderland": We don't care, we care

By doing this, "Theatre of the oppressed" makes participants understand what it means to be both a bully and a victim of bullying.

*Three music performances*

### A special job: Raising children

This Maltese and English song, accompanied by a video, will illustrate the social impact on families in which the unemployed mother is responsible for the upbringing of the children. These mothers have to sacrifice their careers in order to devote their unpaid work to the family. The song conveys a message about family values: although young mothers don't have a job with an income, they contribute to society by raising children and giving them all the support and motherly love that is most important to those children.

Performed by the MCAST Institute for the Creative Arts (Malta)

### Peace – yes, we are one and the same

Latvian Songpower will sing popular songs about peace, such as Michael Jackson's song "Black or White" and the audience will be invited to sing along specific verses of the songs.

Performed by Songpower (Latvia)

### Europe: Rhythm of change

In this performance the audience will be introduced to the culture of brass music. Wind instruments such as trumpets, horns and trombones will be used to perform a variety of musical pieces. The music has a European character and resembles pieces from baroque times, the romantic period and contemporary music.

Performed by Men in Blech (Austria)
