The Terminology Collection of the European Parliament's Historical Library in Luxembourg contains terminological reference books such as glossaries and multilingual dictionaries published since 1958, as well as a selection of recent handbooks and textbooks for translators and terminologists. It is the result of cooperation between the Historical Library and the Terminology Coordination Unit of the EP's Directorate-General for Translation.

This catalogue is a list of the material included in the Terminology Collection and aims at making it known and accessible to a wider audience.
